Dear Sir or Madam:

The staff of the Air Resources Board (ARB) invites you to a public workshop to discuss the ARB's Report to the Legislature on Fuels Specification Violation Penalties.

In 1996 a revised penalty structure was implemented for violations of the fuels specification regulations contained in Title 13 of the California Code of Regulations. This structure will sunset as of January 1, 2003, unless the sunset paragraph is repealed by the Legislature. We are seeking comments on the effectiveness of the revised structure and whether the revisions should be made permanent. The original penalty provision can be found in the California Health and Safety Code (HSC) §43016; the revised structure is in HSC § 43027 et seq.

The details of the public workshop are listed below.
